REMARKS

Arrived on site, all wagons curtains opened and pigeons watered up. Bedded down comfortably for the night.

5.45am weather clear with cloud building up in South. 6-6:30am made calls to check line of flight, all clear. Decision made to commence liberation at 7:00am as cloud could be seen building to the south of the wagons.

All groups cleared excellently from the liberation site.

Weather back to Hartlepool was sunshine with broken cloud.

IF APPLICABLE, GIVE DETAILS OF BASKET CONDITIONS, ESCAPED/INJURED BIRDS ETC
